## • Summary

Frontend Web Developer with strong knowledge of React and modern web technologies, focused on building responsive, user-friendly, and dynamic applications. Experienced in task organization, team coordination, and smooth project execution with proven management skills. Quick learner with a problem-solving mindset, eager to adopt new technologies and continuously improve to deliver impactful results.

## • Education

**I.K.Gujral Punjab Technical University**  
B.Tech · Computer Science · GPA 8.74

Expected: June 2026

## • Experience

**Web Development Trainee**  
Jan 2025 – current

- Gained strong foundation in HTML, CSS, JavaScript, and Bootstrap for responsive web design.
- Learned PHP and MySQL for backend development and database management.
- Built interactive UIs using React with Redux Toolkit for efficient state management.
- Currently exploring Node.js and Express.js for server-side development.
- Continuing to learn MongoDB and Mongoose to enhance full-stack development skills.

**Training**  
Apr 2024 – June 2024

- Completed 8-week online training on Web Development covering HTML, CSS, Bootstrap, DBMS, PHP, JavaScript, and React.
- Gained hands-on experience through practical modules and a final project.
- Secured 79% score in the final assessment, demonstrating strong understanding of concepts.

## • Projects

**PGLife**  
InternShala Final Training Project

2024

- Developed a PG room inventory website allowing users to view room photos and book accommodations based on location.
- Implemented responsive design using HTML, CSS, JavaScript, and Bootstrap for a seamless user experience across devices.
- Integrated PHP and MySQL for dynamic content management and secure booking functionality.

**Car Rental**  
Mini Project

2025

- Built a car rental platform enabling users to rent cars by selecting preferred brands and rental durations.
- Utilized HTML, CSS, JavaScript, and PHP for front-end and back-end development, with MySQL for database management.
- Integrated RazorPay for secure online payment processing, enhancing user convenience.

**Blog Platform**  
Personal Project

Ongoing

- Developing a blog platform where users can create, edit, and view blogs, with support for community interaction.
- Building the front-end with React.js for a dynamic and responsive user interface.
- Using Appwrite as the backend service for user authentication, database management, and content storage.
